

Hello!

Thank you for downloading my Steampunk (inspired) Health Bars! It really means a lot since this is my very first asset pack. If you left a donation then I am deeply grateful! If not, I'm still grateful, haha!

Anyway, I hope you find them to be a perfect fit for your project! Please be sure to credit me for the HP bars if you do use them and, if you want, please be sure to send me a link to your project. I would absolutely love to see the game(s) that these are used in!

Thank you so much again!

Sincerely,
